This workbook combines review activities and practical applications that relate to the content of the textbook chapters from Auto Collision Repair and Refinishing. Questions designed to reinforce the textbook content help students review their understanding of the terms, concepts, theories, and procedures presented in each chapter. The Lab Workbook also contains a series of Job Sheets that provide hands-on practice of skills and procedures aligned to the ASE Education Foundation Tasks. The jobs engage students with the practical skills needed to succeed and are designed to be accomplished in one or two lab sessions. The Shop Manual Job Sheets are intended to be completed in a shop setting under the guidance of an instructor.

AUTO BODY REPAIR TECHNOLOGY, Sixth Edition, features extensive new and updated material reflecting the latest automotive technology and current industry best practices. In addition to incorporating current ASE Education Foundation Collision Repair and Refinish Program Standards and Task Lists, this market-leading book provides detailed information on working with hybrid and electric vehicles, using environmentally friendly water-based paints, and other cutting-edge methods and materials. Celebrated for its clear, reader-friendly explanations and detailed, accurate information, this proven guide also includes abundant full-color photos and illustrations to make even complex concepts easier to understand and apply. Available supplements include a tech manual with shop assignments and job sheets, as well as interactive online resources ideal for today `s learners. Providing comprehensive coverage of collision repair\u2014from initial evaluation and estimating, to structural and mechanical repairs, to repainting and refinishing\u2014this trusted guide helps you quickly and confidently learn the skills and procedures you need to succeed as a professional automotive technician. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This highly engaging DVD training series features the most up-to-date content and latest technologies for all aspects of collision repair, including structural and non-structural repair as well as refinishing. Both the theoretical and practical aspects of auto body repair technology are detailed, preparing viewers for what it takes to be a successful auto body repair technician. Safe work techniques are stressed throughout and uphold the importance of following procedures as shown to ensure a secure repair environment.

This manual has been completely revised to include job sheets focusing on NATEF collision repair tasks. Activity sheets are also included which cover the NATEF Applied Academics and Workplace Skill areas of mathematics, language arts, science, and workplace skills. Students can track their progress towards completion of the NATEF skills with the student check-off sheet provided in the Technician's Manual.

Auto Collision Repair and Refinishing details the latest collision repair and refinishing techniques. This comprehensive textbook presents both the theoretical and practical aspects of collision repair and refinishing in an easy-to-understand manner. It includes information on structural repair, nonstructural repair, mechanical and electrical repair, refinishing, and estmaing. Auto Collision Repair and Refinishing is an indispensable resource for those preparing for a career in collision repair and refinishing, as well as experienced technicians preparing for the ASE collision repair and refinishing certification tests. Organized around the NATEF Collision Repair Task List. Detailed chapters on mechanical systems allow you to recognize and repair common types of mechanical damage encountered in the collision repair shop. The extensive estimating chapter provides unsurpassed instruction on this vital task. Full-color photographs and illustrations are used throughout to enhance understanding. Chapter reviews contain both conventional questions and ASE-type questions.

Dave Luehr believes that right now is the best time in history to be in the collision repair business, but only for those with the right mindset. The authors share insightful lessons along with real-world stories of acutal collision repairers who have discovered the secrets that have propelled them to a much higher level than their competitors.

This all new textbook was written and illustrated to introduce readers to automotive collision repair. Collision Repair Fundamentals stresses the repair of minor body damage and repainting, as well as advanced repairs such as frame straightening and structural panel replacement. Coverage has been added on the latest high-efficiency spray guns, UV-primers, primer-surfacers with a built in guide-coat action, aluminum weld-rivet construction, and much more. Each service-oriented chapter is accompanied by a practice ASE test featuring numerous ASE-style questions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
