Norms of Word

Association contains a heterogeneous

collection of word

association norms. This

book brings together

nine sets of association

norms that were

collected independently

at different times during

a 15-year period. Each

chapter is a self-

contained unit. The

order in which the

norms are presented is arbitrary, although an attempt is made to group together norms that seem to belong together. The 1952 Minnesota norms are presented first, due to "age" and in recognition of the fact that a number of the norms that follow are direct outgrowths of this work. The next three norms in this

collection are responses to the Russell-Jenkins stimuli obtained from subjects representing different linguistic communities. A summary of association norms collected from British and Australian subjects are reported along with association norms from German and French college students and French workmen.
